## HITACHI

**Reliable solutions** 

## zaxis55U

#### HYDRAULIC EXCAVATOR

Model Code : ZX55U-5A Engine Rated Power : 28.2 kW (37.8 HP) Operating Weight : Canopy 4 790 - 4 960 kg Cab 4 920 - 5 090 kg Backhoe Bucket : ISO Heaped : 0.15 m<sup>3</sup>

Shown equipped with 1.69 m arm, additional counterweight, extra piping and cab as optional items.

## **Trustworthy and User-Friendly New Compact Excavators**

The new series of Hitachi compact excavators has evolved even more. We listen to customers' needs, provide solutions, and adopt fresh ideas into our new products. The outcome is new excavators that are compact, productive and nimble. The round body is smart and its wide-opening covers provide direct access to service points for quick maintenance.

The operator station is full of easy-to-use controls, an informative multi-monitor, and comfortable operator seat. A low fuel consumption design ensures better fuel efficiency.

HITACHI

HIGH PERFORMANCE

HITAC

Swift actions in narrow work place Excellent controllability Reduced fuel consumption

DURABILITY

A line of Hitachi quality products Strong front attachment Rugged box-section blade Sturdy upperstructure

TACHI

Shown equipped with 1.69 m arm, extra piping, additional counterweight, armrests and pre-cleaner as optional items.

## ZAXIS Empower your Vision.

#### **OPERATOR COMFORT**

- Pleasant operator environment
- Sturdy operator stations by rigorous safety standards
- Easy-to-read multi-monitor

#### SIMPLIFIED MAINTENANCE

Open-wide covers for easy maintenance Easy-to-clean cab floor Sloped track frame tops for easy mud removal

Shown equipped with 1.69 m arm, extra piping, additional counterweight. pre-cleaner and stack muffler as optional imems

## **HIGH PERFORMANCE**

**Agility Stands for Efficiency** 

#### Swift Actions in Narrow Work Place

Short rear-end swing design allows for safe, confident operation in tight work areas.

Shown equipped with 1.69m arm, extra piping, and additional counterweight as optional items.

#### **Excellent Controllability**

The Hitachi pilot control system is impressive. The control lever provides excellent fine control and low-effort handling to reduce operator fatigue. It is ergonomically positioned for easy operation. The HHH (Hitachi High-performance Hydraulic) system allows for smooth operation by lever control regardless of the load. The multi-monitor allows selection of ECO and PWR modes to control the motion speed. With the engine control dial, you can also adjust engine speed with ease. The auto speed change system shifts down travel speed when the load exceeds a certain limit (for instance, when going downhill), and shifts up when the load is less.

ntrol lever Shown equipped with cab, armrests, air condition pedal and FM/AM radio as optional items.

Engine control dial

FCO / PWB mode selector switch

### ZAXIS Empower your Vision.

#### **Reduced Fuel Consumption**

A new engine has an electronic governor that is a clue to low fuel consumption. With an electronic accelerator, you can achieve precision engine control for fuel economy. To conserve fuel, select ECO mode, and to get more power, select PWR mode. In short, you can choose an optimum mode according to job needs.

The Auto Idle helps save fuel consumption, too. When moving the control lever to neutral, the Auto Idle automatically reduces engine speed to idling level four seconds later, reducing fuel consumption.

## **OPERATOR COMFORT**

**Comfortable Operator Stations to Yield High** Production

Shown equipped with cab, suspension seat, armrests, FM/AM radio, auxiliary function lever, air condition and pedal as optional items.

#### Pleasant Operator Environment

Hitachi cabs and canopies have been traditionally praised for operator comfort. They are spacious with ample leg room. The console and seat are designed ergonomically, standing for operator comfort.

When sitting in the operator station, the operator will not feel resticted. Cab door width increases by 80 mm for easy access and a better view of work place. The front windshield is enlarged for higher visibility. The foot step is lowered for easy access. A host of devices, including arm rests, drink holder and seat back box, enhance operator comfort.

#### Sturdy Operator Stations by Rigorous Safety Standards

The rugged cab and 4-pillar canopy well protect the operator in case of tipping. They are ruggedly designed by the ROPS\* standard. All the models are protected with the OPG\*\* top guard against falling objects.

A seat belt, pilot control shut-off lever, swing parking brake and travel parking brake are all standard. The neutral engine start system further enhances safe operation, disabling engine starting unless the lever is in lock position. \*Roll-Over Protection Structure \*\*Operator Protection Guard

#### Easy-to-Read Multi-Monitor

The multi-monitor is bright, informative and easyto-read, displaying machine conditions, settings and warnings. A clock is newly added.

## SIMPLIFIED MAINTENANCE

Easy Servicing, Day-in Day-out

#### **Open-Wide Covers for Easy Maintenance**

All covers are wide-opening for direct access to service points, allowing for quick daily inspection and replacement. A cover adjacent to the radiator extends vertically to easily clean the radiator. A refueling port is placed inside the cover to avoid dirt entry and fuel theft.

A new tank cover is lightweight and wide-opening for easy refueling. A large tool box is located beside the operator seat to store a grease gun and the likes. All this increases uptime.

**1** Reserve tank 2 Water separator **3** Fuel filter

**4** Air filter 5 Engine oil filter 6 Fuel tank

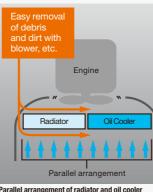

#### Easy-to-Clean Cab Floor

The radiator and oil cooler are arranged in parallel, instead of conventional in-line arrangement, to promote easy, efficient cleaning and cooling. Their wavy fins can be easily cleaned by air blowing.

Dust-proof indoor nets provide for easy removal of debris and dirt. A split-type floor mat can easily be removed at a seam between foot pedals and cab floor, and its surface patterns allow for quick sweeping.

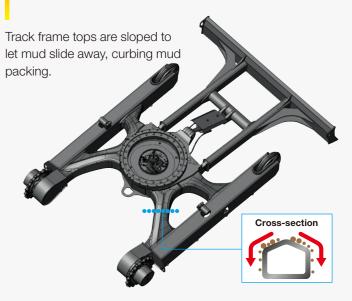

#### Sloped Track Frame Tops for Easy Mud Removal

## DURABILITY

**Technological Prowess and Stringent Quality Control** 

#### A Line of Hitachi Quality Products

Hitachi has been acclaimed worldwide for technological prowess and high-performance products since the launch of its first hydraulic excavator in 1949. Its Design Division has adopted the 3D-CAD system for applied analysis and data crunching to churn out quality products and slash lead time in development.

Newly developed products have been vigorously tested in multiple ways, such as long-hours durability test and evaluation test, at a Hitachi vast 427 hectares test field under critical operating conditions - for instance, tropical or freezing weather -- before unveiling new products.

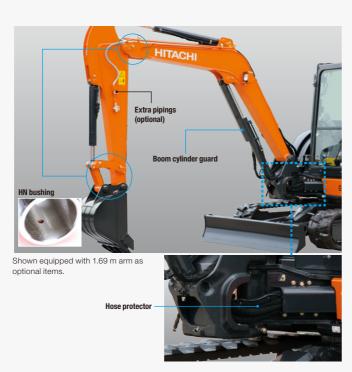

#### Strong Front Attachment

Front pins are jointed with a tight fit to reduce jerking and noise significantly, enhancing durability. Those pins are lubricated with HN bushings having an abundant greaseretaining capacity, extending greasing intervals up to 500 hours.

Main hoses are sheathed with hose protectors at the swing post. The bottom side of the boom cylinder is protected with a V-shaped boom cylinder guard. The four-side reinforced arm is sturdy with high rigidity.

#### **Rugged Box-Section Blade**

The blade is box-section structure for higher ruggedness, and its stays have openings for easy flow-out of mud.

## Sturdy Upperstructure

The upperstructure frame is reinforced with job-proven D-section skirts whose height is increased for larger cross section to boost durability against obstacles.

and additional counterweight as optional items.

## **SPECIFICATIONS**

ENGINE	
Model	Yanmar 4TNV88
Туре	4-cycle water-cooled, direct injection
No. of cylinders	4
Rated power	
ISO 9249, net	28.2 kW (37.8 HP) at 2 400 min <sup>-1</sup> (rpm)
EEC 80/1269, net	28.2 kW (37.8 HP) at 2 400 min <sup>-1</sup> (rpm)
SAE J1349, net	28.2 kW (37.8 HP) at 2 400 min <sup>-1</sup> (rpm)
Maximum torque	139.6 Nm (14.2 kgfm) at 1 100 min-1 (rpm)
Piston displacement	2.189 L
Bore and stroke	88 mm x 90 mm
Batteries	1 × 12 V / 72 Ah

#### HYDRAULIC SYSTEM

#### Hydraulic Pumps

Main pumps	1 variable displacement axial piston pumps
Maximum oil flow	1 x 120 L/min
Pilot pump	1 gear pump
Maximum oil flow	12.0 L/min

#### Hydraulic Motors

Travel	2 variable displacement axial piston motors
Swing	1 axial piston motor

#### **Relief Valve Settings**

Implement circuit	24.5 MPa (250 kgf/cm <sup>2</sup> )
Swing circuit	18.3 MPa (187 kgf/cm <sup>2</sup> )
Travel circuit	24.5 MPa (250 kgf/cm <sup>2</sup> )
Pilot circuit	5.9 MPa (60.2 kgf/cm <sup>2</sup> )

#### **Hydraulic Cylinders**

	Quantity	Bore	Rod diameter	Stroke
Boom	1	95 mm	55 mm	699 mm
Arm	1	80 mm	50 mm	731 mm
Bucket	1	75 mm	45 mm	551 mm

## EQUIPMENT

## **MEMO**

Standard and optional equipment may vary by country, so please consult your Hitachi dealer for details.

• : Standard equipment O : Optional equipment

ENGINE	
Auto idle system	
Cartridge-type engine oil filter	
Dust-Proof indoor net	(
Electrical fuel feed pump	•
Fuel main filter	(
Radiator reserve tank	•
Water-separator for engine fuel	•

#### HYDRAULIC SYSTEM

Boom anti-drift valve	•
Full-flow filter	•
Hose rupture valve	0
Hydraulic pilot type control levers	•
Pilot control shut-off lever with neutral engine start system	•
Pilot filter	•
Suction filter	•
Swing parking brake	•
Travel parking brake	•
Two-speed travel system	•
Valve for extra piping	•

Anti-slip plate	
Armrests	
Auxiliary function lever (AFL)	
Drink holder	
Electric horn	
Floor mat	
Reclining seat	
Retractable seat belt	
ROPS/OPG canopy	
Spare power supply	
Suspension seat	
CAB	
Air conditioner	
AM/FM radio	
Anti-slip plate	
Armrests	

Auxiliary function lever (AFL)

Defroster Drink holder

Electric horn

Reclining seat

Retractable seat belt ROPS/OPG cab

Spare power supply

Suspension seat Window washer

Floor mat

Heater

Wiper

MISCELLANEOUS	
Theft deterrent system*	0

#### $^{\star}$ Hitachi Construction Machinery cannot be held liable for theft, any system will just minimize the risk of theft.

#### Hitachi Environmental Vision 2050

Our Environmental Vision envisions a low-carbon society; a resource efficient society; a harmonized society with nature. To achieve such a sustainable society, we have established a set of long-term environmental targets called Hitachi Environmental Innovation 2050.

#### **Reducing Environmental Impact by New ZAXIS**

Hitachi makes a green way to cut carbon emissions for global warming prevention according to LCA\*. New ZAXIS utilizes lots of technological advances, including the new ECO mode, and Isochronous Control. Hitachi has long been committed to recycling of components, such as aluminum parts in radiators and oil cooler. Resin parts are marked for recycling. \*Life Cycle Assessment – ISO 14040

These specifications are subject to change without notice. Illustrations and photos show the standard models, and may or may not include optional equipment, accessories, and all standard equipment with some differences in color and features. Before use, read and understand the Operator's Manual for proper operation.
